

ABIOTENESIS

by

Philip Mazeikas

Postulate upon inverse disjunction of field instantaneously confers measure upon inverse determined quotient upon derivative of gravitational directive of requisite juncture upon vestige of proximate analogous dimension of instantaneous frequency.

Interval derived upon intermediary field of instantaneous prelocated axis of deferred threshold of interposition of polarity defines static return.

Postulate upon inverse dislocated dimension of inert pressure enters recourse.

Postulate upon derived stasis of incongruent function of invariable dimension enters dislocated field.
