

THE COLLECTION:

**THE FEAR**

by

Philip Mazeikas

Interposition upon refrain upon determined variance denies absolute juncture derived upon integral designated measure.

**THE DARK LORD**

*Static measure upon determined threshold of interval defines intermediary absolute function upon determined presupposition of integral axis upon disjunction of field.*

**CONTROL**

*Congruence upon dislocated measure enters interposition of intermediary variance upon presupposition of function of derived stasis upon dislocated variable juncture.*

**THE ETERNAL MYSTERY**

*Postulate upon deferred measure enters limit upon dislocation of integral intermediary.*

**THE HEARTBREAKER**

*Presupposition upon stasis of integral threshold defines intermediary function upon determined absolute interposition of threshold upon dislocated axis.*

**THE REBEL**

*Interval upon determined variant derivative of integral intermediary directive of absolute deference upon dislocated congruence of axis enters intermediary function of interposition of refrain.*
