

JUSTICE SYSTEM INJUNCTION

by

Philip Mazeikas

Prerequisite field upon dissolution of function upon displaced variant axis of determined axiom denies congruence upon dissolution of inert stasis of intermittent variable statute.

Law interposed upon dislocated variable function of intermittent stasis of requisite juncture upon indivisible measure enters postulate upon determined vestige of instantaneous limit.

Quotient upon determined variable field upon intermittent static recourse enters limit upon denial of integral function of axis of instantaneous refrain.

Limit juxtaposed beyond instantaneous measure of indivisible statute of determined recourse defers congruence upon instantaneous threshold of determined variable directive of veracity.

Juncture upon deposited variable field dislocates upon indivisible refrain.
