THE COLLECTION:

THE METASCIENCE

by

Philip Mazeikas

Coordinate field upon repose of invariable stasis upon derived measure defines coordinate.

SCRUTINY

Value deposed upon incongruent vestige of interval upon threshold of axis defers postulate.

EMPIRICISM

Threshold deferred upon variable field upon coordinate stasis of interval upon derived refrain enters intermittent value.

RATIONALITY

Derived congruence upon sequential function of inert coordinate limit defines threshold.

FUNCTION

Prelocated variable redress upon incongruent field of inverse coordinate threshold of axis defines measure.
