TARO

by

Philip Mazeikas

The **TARO** is a primary and universal unit of measure.

The **TARO** is one.

The **TARO** is the constant of limit upon function of entropy.

$$\Psi A - E = q$$

Dislocated variance upon integral mass enters force.

Limit upon absolute threshold of field enters measure.

The **TARO** is the measure of force upon quotient of absolute limit.

The **TARO** is the metric of absolute measure.
