

THE TRIAL OF THE NURTURING OF SOCIETY

by

Philip Mazeikas

Do not heed the call to evil.

Carry no complacency towards illusion.

Hold no worry towards the approval of others.

Seek to dispel misperception.

Do not be detracted from your goals.

Do not invest in fantasies of collective demands.

Do not honor the oppressor.

Seek your inner dream.

Value the innocence and love of people.

Seek self knowledge.

Help the world, civilization, and Man, if you can.
