

PROJECT NO

(the silent takedown)

By

Philip Mazeikas

RIZZZZZ

(eye clot)

CONCEPT:

Invariable consequence upon remand of interval upon internment of calibrated fission upon diametric equity of volume in conferred prerequisite variable limit of congruent disjunction of pressure, in absolute torque upon resolve of matter, denies not.

BLUEPRINT:

Pressure, in limit, upon displaced measure of coordinate flux of individual pretension of calibration, enters threshold.

SYNOPSIS:

Coordinate resolve in animate resolve of internment of frequency upon displaced metric of field denies caliber.

SCHEMATIC:

ION

“threshold”

->

HERTZ

“disjunction”

->

VACUUM

“dimension”

->

DIODE

“function”

DESIGN:

The ion displaces measure upon magnetic ratio of dissolution of pressure. The hertz measure coordinate. The vacuum enters prelocated measure upon variance of internment of calibration of dissension. The diode returns magnitude.

POSTULATE:

Inclosure upon dimension of dislocation of material vestige of proportionate variance denies one.

ENGINEERING:

Inorder, in prelocated variance upon disclosure of imminent ionic field, denies variable.

THEORY:

Order, in translation of variable pressure, enters coordinate.

ANALYSIS:

Juncture of field, in absolute quotient of remand, upon immeasure of degree of retention, denies value.

CONCLUSION:

RIZZZZZ denies variance upon threshold of pressure.

PROSPECT:

RIZZZZZ enters field.

APPORTO
(blood clot)

CONCEPT:

Ameasure, upon preeminent variance of field, enters thrust.

BLUEPRINT:

Composite variance, upon disintegration of membrane, denies value.

SYNOPSIS:

Dislocated field, upon frequency of absolute determinant, varies.

SCHEMATIC:

DELTA WAVE

“junction”

->

MEGAWATT

“variance”

->

RECTIFIER

“quotient”

DESIGN:

The delta wave invers determinant of measure upon calibration of field. The megawatt defers threshold of variable static. The rectifier denies volume.

POSTULATE:

Distinguished variance, upon pronoun of calculation, enters intermediary.

ENGINEERING:

Pressure, in calibration of variable fission upon contortion of field, denies measure and mass.

THEORY:

Measure, in denotation of frame, remands interval.

ANALYSIS:

Pressure, in calibration of variance upon integral wave function, enters release.

CONCLUSION:

APPORTO denies mass.

PROSPECT:

APPORTO limits wave form.

WOOOFA

(heart clot)

CONCEPT:

Dimension of allocative remand of function, dislimits frequency.

BLUEPRINT:

Pressure in analogous internment of calibrated vestige of allocative degree of retention of inertia, enters magnitude.

SYNOPSIS:

Coordinate mass, upon renown of pressure, in conglomerate of pressure, denies mass.

SCHEMATIC:

COMBUSTION

“denial”

->

DECIBEL

“function”

->

CIRCUIT

“variance”

->

OSCILLATOR

“thrust”

DESIGN:

The combustion denies variance. The decibel remands pressure. The circuit derives congruence.
The oscillator denies mass.

POSTULATE:

Inversion upon postulate of remand of threshold of magnitude, amplifies.

ENGINEERING:

Obsolete field, in return of quotient of metric, denies variance.

THEORY:

Analog of return, in premeasure of determined wave function, limits progression.

ANALYSIS:

Juncture in premeasure of calibration, enters mass.

CONCLUSION:

WOOOFA disjoins metric of wave form.

PROSPECT:

WOOOFA postulates variance upon determined amplitude of field.
