LOCALIZED MATTER

By

Philip Mazeikas

$$G^{AH\sqrt{G-1}} = \Sigma M(Ah + \Sigma)^{G-1}$$

Dissemination upon clause, of inordinate mass, upon disjunction of field, returns.

Preeminent disclosure, of valid recourse of animate inclosure of dislocated magnetism, disjoins absolute.

Pressure, in remand of coordinate intonation of One, remains.

Prelude, in interval, of stasis, and mass, enters zero.

Postulate in Gravity, upon denotation of material, enters coordinate.

Influx derivative ion, dislocated upon coordinate hertz amplitude, enters.

Pressure, in coordinate axis of One, derives.

Absolute functions.
