

PROJECT FUN

By

Philip Mazeikas

THE GODFATHER

[puppeteering]

CONCEPT:

Intermittent calculation, in remand of function, in isometric variable composite of allocated mass of distinction, regains amplitude in return of function of entropy in calculable stasis.

BLUEPRINT:

Dimension of appropriated vestige of composite refraction, decelerated upon mitigation of proponent of variable limit of axis of disjunction in applicable field, denies aversion in predominant mass.

SYNOPSIS:

Amass in appropriated conjunction of isolation and internment of allocated measure enters zero.

SCHEMATIC:

DIODE

“variable mass”

->

GRAVITY

“threshold”

->

HERTZ

“conjunction”

->

DECIBEL

“function”

->

TORQUE

“mitigation”

->

SIN ENTROPY

“return”

DESIGN:

The diode measure interval upon proponent of allocated internment of variable pressure. The gravity denies variable limit upon disjunction of direction of refraction. The hertz calculates variance. The decibel inverts composite function of isolation. The torque denies variance. The sin entropy derives congruence.

POSTULATE:

Inert Cambrian dislocation of mass, in immeasure of directive of pressure, enters one.

ENGINEERING:

Pressure, in allocated degree of function of internment of calculative measure of inertia, dislocates.

THEORY:

Intonation of variance, upon dimension of allocated dimension of prelocated variable function of mass, denies.

ANALYSIS:

Postulate in remand, of tension in remand of function of quotient of isolation, interns.

CONCLUSION:

The Godfather intermediates variable composite.

PROSPECT:

The Godfather dislocates.

HUMANSIK
[organism exploder]

CONCEPT:

Ion, derived incomplete, in mass upon aberration of postulate in contortion, recurs.

BLUEPRINT:

Intermediary volume, in dislocation of variable stasis of ion, enters premeasure.

SYNOPSIS:

Frequency, in mass, upon denotation of variable isolation of quark, enters intermediary.

SCHEMATIC:

ATOM

“limit”

->

VELOCITY

“intonation”

->

WAVE POLARITY

“hertz”

->

PROTON

“quotient”

->

PRESSURE

“calculation”

->

NUCLEAR STRONG FORCE

“function”

DESIGN:

The atom isolates. The velocity intermediates volume. The wave polarity enters mass. The proton disjoins inertia. The pressure derives stasis. The nuclear strong force incurs gradient.

POSTULATE:

Pressure, in field, upon dimension of absolute metric, inverts.

ENGINEERING:

Derivative of field, in postulate of variable distinction, aberrates.

THEORY:

Interval of pressure, in composite variable limit of field, disjoins acceleration.

ANALYSIS:

Limit, in accord of mass, in absolute vacuum, denies threshold.

CONCLUSION:

Humansik derives composite mass.

PROSPECT:

Humansik enters postulate upon remand of return.

TEKELEKTIK

[neural control]

CONCEPT:

Inert volume, of congruent mass of displaced afunction of proponent of dissolution of nuclear isolation, returns.

BLUEPRINT:

Proportion, in symmetry of analogous threshold of material intermediary, initiates zero.

SYNOPSIS:

Prelimit, in denial of stasis, enters composite allocation upon denomination of protonic acceleration.

SCHEMATIC:

MEGAWATT

“variable”

->

JOULE

“function”

->

REFRACTION

“intonation”

->

QUARK

“inertia”

->

CONSTANT

“mass”

->

VACUUM

“field”

DESIGN:

The megawatt denies variable gravity. The joule exponentials predominant volume. The refraction disjoins metric of nuclear isometry. The quark inverts field. The constant intermediates congruence. The vacuum measures.

POSTULATE:

Derivative of presupposition of intermediary volume, denies function.

ENGINEERING:

Selective variable limit in denotation of inertia, amplifies.

THEORY:

Inert concordance, upon dissolution of material, enters mass.

ANALYSIS:

Pressure, in analytic variable composite of variance enters congruence.

CONCLUSION:

Tekelektik incurs threshold upon proportion of isolation.

PROSPECT:

Tekelektik inverts material disjunction of a measure upon field.
