WAVESICKEL

[darkness thrower]

CONCEPT:

Immeasure denied variable stasis, upon coordinate influx determined wave magnitude of polarity, defers.

BLUEPRINT:

Conglomerate, distinction mass, upon note of variable function, enters isolation.

SYNOPSIS:

Pressure, devoid matter stasis, enters.

SCHEMATIC:

WAVE FUNCTION

"variable function"

->

QUARK

"threshold"

->

SILVER

"magnitude"

->

OSCILLATOR

"mass"

DESIGN:

The wave function enters polarity in mass upon denotation of fission. The quark denies inertia.
The silver measures magnitude of field. The oscillator returns hertz.

POSTULATE:

Quotient of variable nuclear magnetic division of polarity, returns.

ENGINEERING:

Pressure, in mass, upon quark of intonation, dissolves.

THEORY:

Magnitude of axial depletion, in atmospheric dissolution, derives function.

ANALYSIS:

Polarity, in distinguished deference of polar intermediary, disjoins.

CONCLUSION:

Wavesickel measures intonation.

PROSPECT:

Wavesickel derives intonation upon pressure.

PUMPINPAT

[sound thrower]

CONCEPT:

Residual matter, in proponent of allegorical pronoun of distinct measure, in caliber of axis of limit, enters.

BLUEPRINT:

Calculable variance, in measure upon resolve of inert quadratic mass, revolts.

SYNOPSIS:

Postulate, returned, ameasure, in proponent of absolute, disjoins derivative of polarity.

SCHEMATIC:

ION

"threshold"

->

MAGNET

"function"

->

WAVE FORM

"limit"

->

DIODE

"hertz"

->

ATOMIC ENTROPY

"value"

DESIGN:

The ion dislocates mass. The magnet enters variable limit of quotient of nuclear vestige of pressure. The wave form derives stasis. The diode inverts entropy. The atomic entropy regains value.

POSTULATE:

Pressure, in dislimits of proponent of axial threshold of nuclear intermediary, enters atom.

ENGINEERING:

Predominant value, upon repose of incalculable variance, denotes.

THEORY:

Preface, in value, upon coordinate influx denotation of mass, resolves.

ANALYSIS:

Pique, of variable fission, regains.

CONCLUSION:

Pumpinpat dislocates variable dissolution of frequency.

PROSPECT:

Pumpinpat resolves animate disjunction of atomic field.

MEEMOSIPPY

[light thrower]

CONCEPT:

Electromagnetic variable fission of denotation of atomic incongruence, dislocates.

BLUEPRINT:

Inanimate disjunction of pressure, in field, upon return, animates value.

SYNOPSIS:

Pressure, in categorical intonation of pressure of atomic disjunction, enters.

SCHEMATIC:

POLARITY

"variance"

->

AMP

"variable limit"

->

CARBON

"intonation"

->

MEGAWATT

"wave"

DESIGN:

The polarity enters intermediary congruence of atomic limit. The amp derives stasis. The carbon measures variable return. The megawatt enters zero.

POSTULATE:

Pressure, in component of function of dissension, amplifies.

ENGINEERING:

Proponent of variable distinction of atomic measure, enters intermediary.

THEORY:

Limit, upon component of categorical amplitude of mass, disjoins.

ANALYSIS:

Threshold is magnitude of atomic intermediary value of isolation, enters nuclear isolation.

CONCLUSION:

Meemosippy disjoins metric of amplitude of acceleration of intonation.

PROSPECT:

Meesosippy disjoins pressure.

CUNTCUNTCUNT

[wind thrower]

CONCEPT:

Power, in categorical amplitude of isolation of electromagnetic variance, defers continuity of pressure.

BLUEPRINT:

Selective interval, of electric threshold of mass, enters preliminary quotient.

SYNOPSIS:

Inversion, of incategorical amplitude of isolation of membrane, in fission, dislocates.

SCHEMATIC:

HERTZ

"threshold"

->

VALVE

"amplitude"

->

TRANSISTOR

"selection"

->

MASS

"wave interval"

->

DELTA WAVE

"function"

DESIGN:

The hertz magnifies interval of polarity. The value disjoins isolation of membrane distinction of polarity of incongruent field. The transistor enters amplitude of conjunction of intermediary gravity and isolation in dimension. The mass regains amplitude. The delta wave isolates.

POSTULATE:

Pressure, in component of resolve, enters mass.

ENGINEERING:

Polarity, in conjunction of integer and absolute fission of material dissolution, regains.

THEORY:

Mass, upon proponent of isolation, regains function upon polarity.

ANALYSIS:

Light, in amplitude of conjunction of pressure and dimensional stasis, regains variable mass, upon acceleration of limit in denotation of field.

CONCLUSION:

Cuntcuntcunt disjoins metric of gravitational symmetry upon polarity of incongruent threshold of atomic distinction.

PROSPECT:

Cuntcuntcunt measures interval.
