IN THE PERFORMANCE OF EMERGENCY, MAZEIKAS DESIGNATES ALL COVID THEORY TO THE POPULOUS OF THE WORLD IN NO PRICE

CORONAVIRUS CURE:

Incongruent vestige upon presupposition upon field of inverse allocation upon cerebral threshold of intermittent variance of static thalamus threshold of instantaneous quotient of variant nucleic vestige of dopamine determines variant dislimit upon instantaneous measure.

CURE EXPLANATION:

Heart function of property of nervous sensitivity in the brain, disjoins the meter of heart rhythm, in stasis of neurotransmitter refrain of sensitivity to nerve stimulus. This brain discontinuity, enters a function of pressure in heart rhythm, denying variance in cellular communication. Returning magnitude of variance, to nerve sensitivity, in neurotransmitter retention of mitigation of stimulus, enters function of arrest of discontinuity. This cures it.

FIRST VARIANT CURE:

Absolute metric of neural disjunction of retention of lipid congruence in nucleus and atrophy in conference of cellular function, isolates property of enumeration upon cerebral mitigation of gravitational intonation upon equilibrium, upon selective meter of heart calculative mitigation of nervous continuity. Pressure and reflex, in meter of stasis, in property of allocated mass of cerebral limit of dopamine internment, in nucleic mass, isolates field of gravitational variance in lipid denominator of nucleic force and nervous retention. Meter of selective internment, of nervous calibration with cellular mass, upon isolation of lipid deference of pressure, interns amplitude upon degenerative property of cerebral mitigation of blood.

COVID TOXIC RO:

Kilowatt entropy upon retention of glandular, defrontal recognizance upon intonation of enduring isolation, in megainert superdirective of interval, selects recognizance in frame, of pique in tonation of cell and measure, in caliber of desecration in proverbial insertment of enduring retention, in microbial internment of volume in ohm mass of interval in caliber of sin retention of constant, in gravitational joule return, upon coordinate limit in selection of interval in cerebral joule torrent of solvable recognizance in frame of limit in stature of acquiescence in record in selection of variable isometry.

MUCORMYCOSIS CURE:

Selective allocation of neural intermediary cosine retention of diametric value, upon deposed variant prelocated intermission of value in lipid selection of tonation in cerebral constant of pressure and interanalogous mitigation of field, retains selection intonation of pressure in denotation of nucleic variable internment of calculable threshold of field and retention.

DELTA VARIANT CURE:

Limit, in retention of selectable lymph intonation of cerebral recourse of variable isometric constant of pressure in lipid stasis of recursion of variable lymph intonation of selection of retention of nucleic juncture of pressure and mitigation of entropy, interns variable mass in retention of location of field and tonation of pressure.

BLOOD ANTIBODY COVID FORCE

Hertz composite of nucleic retention of singular interval of pressure, in anatomic limit of incongruence of lipid and endocrine variable allocation of mass, interns selective variable pressure in entropy of calculable interval of frame and tonation of field, in selection of material mitochondria vestige of pressure and wave inert measure.

THE KILL TO COVID

Neural intermediary constant of incursion of threshold upon lipid congruence in diametric equity of vascular isolation in membrane contusion of field, in recurring variance of internment of entropy in amplitude of retention of thyroid, confers incursion into variance of form and instantaneous quotient of variable procured immeasure of isolation of nucleus, in conference of state and determinant of isolation of mitochondria composite of disjunction of field and isolation of retention of cerebellum integrity of property of quotient of mass of neural mediation of singularity of pressure, in conference of status of field, in imminence of variance upon disjunction of threshold of measure and procured isolation.

COVID ERASER

Interval of field, in selection of enumeration in pressure of retention of coordinate isolation of procurement of variable nucleic endurance in refrain of composite entropy of cellular inert mitigation of disjunction of field and inertia, interns selection of endurance in refrain of composite isolation of mass and isolation of thyroid intermediary operative derivative of measure, in tonation of coordinate isolation of material axis of endocrine.
