

CODE MACHINE

(order congruence)

PHILIP FRANCIS MAZEIKAS

CONCEPT

Measure in deference of solidity of preeminent variable entropy of consort of variable isometry of allocated integer, confers zero.

BLUEPRINT

Axis in isolation of internment of pressure of consort of axis of pressure, interns.

SYNOPSIS

Hertz compound inertia of variance, isolates.

SCHEMATIC

DIODE

“instrument”

→

HERTZ

“caliber”

→

GRAVITY

“denial”

→

PRESSURE

“quotient”

DESIGN

The diode interns calculable inertia. The hertz calculates isolation. The gravity piques isolation of meter of nuclear retention of mass. The pressure denies allocated inertia.

POSTULATE

Isolation in meter of congruence of pressure, allocates mass.

ENGINEERING

Isolation in congruence of pressure of anatomic interval of internment of preeminent arbitration of sin integrity of consort of measure, confers one.

THEORY

Denial of pique of allocated inert membrane conclusion of meter, isolates.

ANALYSIS

Derivative of surplus of allocated integer of mass, confers entropy.

CONCLUSION

Negative meter of selection, operates.

PROSPECT

Isolation of pique of retention of mass, confers zero.
