

REVELATION FLASHLIGHT
PHILIP FRANCIS MAZEIKAS

Pressure in derivative of allocated integer of intermediary volume of axis of nuclear quotient of mass and entropy, calculates pique of entropy of selection of molecular quotient of asymmetry of analog negation of denotation of volume of sin retention of mass, in constant of pressure in tonation of variable allocated integrity of mitigated pique of selection of volume of sin entropy of singular axis of internment of nuclear isometry of pique of volume, in constant of pique of selection.
