

EARTH HORIZON WINDOW
PHILIP FRANCIS MAZEIKAS

Isometric congruence of field in denominator of axis of prelocated quotient of amass of deference of inertia, compounds denial of selection of innate pressure upon tonation of pique of entropy of colligated internment of variance upon denial of axis of pique of numerator of negation of retention of alocation upon deference of solidity of nitrogen calculable disjoined membrane of selection of axis of prelocated inertia of compound force and irregular tonation of limit of entropy, in cosine internment of variable axis of field.
