

STIMULUS SEQUENCER  
PHILIP FRANCIS MAZEIKAS

Innate negation of pique of photonic internment of variable axis of longitudinal meter of selection of ionic negation of atomic internment of variable entropy of cosine inertia of ionized ordinate mitigation of negation of volume of retention of gravitational interval of field and symmetry of negation of pressure, confers arbitration in meter of solvable regularity of tonation of apex of conjunction of symmetry of analog internment of negation of ordinate meter of volume of pique of atomic retention of soluble retention of mass and integer of variable selection of axis of inertia.
