

FORCE GRADIENT  
PHILIP FRANCIS MAZEIKAS

Mass upon inert wave limit of sin quotient of neutronic constant of retention of molecular irregular isotope of congruence of wave ordinate isometry of cosine interval of wave negation of proton, enters inert neutronic inordinate volume upon integer of pique of electron internment of axis of longitudinal kilowatt acceleration upon entropy of cosine return of wave constant of irregular quadratic negation of volume of ordinate congruence of pique of gravitational internment of longitudinal variable neutrino limit of congruence of polarity.
